

project installation

We pride ourselves on our team's ability to quickly, efficiently and accurately install, tear-down, rearrange, move and configure furniture of all types. Our 27 full-time, Steelcase-certified installation technicians are experienced, knowledgeable professionals who are dedicated to providing hands-on service, on-time deliveries and seamless project execution - so that you can get back to work.

From small casegoods installations or chair deliveries, to large complex systems furniture projects, Forrer provides complete delivery and installation services, including:

- Receiving and Warehousing
- Delivery and Set-up
- Installation
- Dismantling and Reconfiguration
- Move Management

Our crews handle all steps of a delivery from receiving documents to punch lists. We will analyze an installation and develop a comprehensive plan of action that takes into account everything from drawings, specifications, and site conditions to manpower loading, technical issues and contractor or sub-contractor communication. You can count on Forrer to get the job done right - the first time.
